

Deliver awesome guest and employee experiences with Ooma hospitality cloud solutions.

Ooma helps hotels elevate how they interact with guests from the booking experience to check-in to check-out. We modernize your property to help you deliver a differentiated guest experience that builds long-term guest and brand loyalty.

Reduce complexity by getting everything you need from one partner in a simple, turnkey package including:

Automated Guest Amenities

Cloud PBX Phone Systems

SIP Trunking

POTS Replacement

Reservation Center

Internet

## Why Hundreds of Leading Hospitality Brands Choose Ooma

- Easy-to-manage VoIP hotel phone systems.
- All-inclusive monthly pricing eliminates varying month-to-month costs.
- Full-feature integration with 70+ Property Management Systems.
- Enterprise-grade 99.999% availability, security and reliability.
- Concierge white glove discovery, deployment and support.
- Trusted solutions and services backed by telephony and hospitality experts.

“We have used Ooma for over 4 years and have always found them to be a great solution for data and voice. We have incorporated them in almost every hotel we own and operate and happily recommend them to other management companies and businesses.”

– Kunal Patel | IT Manager, IIG Hotels

## Cloud PBX Phone Systems

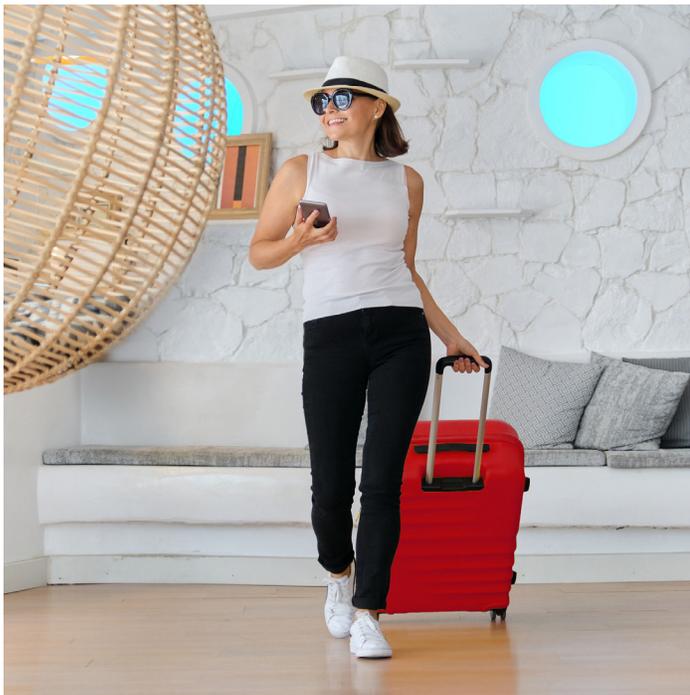

Enjoy crystal-clear voice with unlimited calling in the United States, Canada and Mexico.

- **Cloud-based service** with all inclusive pricing and support from a single vendor.
- **Easy-to-use web portal** to make changes to your phone system like call routing and greetings.
- **Re-use your existing equipment and wiring.**
- **Never miss a call** with the Ooma mobile app or portable handset.
- **Keep improving** the guest and employee experience with modern call analytics.

## Automated Guest Amenities

Increase revenue and brand loyalty by personalizing the guest experience.

- **Welcome VIP guests** and loyalty members with special messages and offers.
- **Inform guests of checkout procedures** before check-out.
- Promote property amenities and events.
- **Enable guest-centric wake-up call service** and voicemail management.
- **Notify guests of anticipated service impacts**, retract unread messages when issue is resolved.

## POTS Replacement

Ooma AirDial enables organizations to save money, and keep using voice and alarm systems by migrating from copper wire phone lines to an intelligent all-in-one solution that runs on a wireless network.

- **Save up to 60%** on monthly phone bills.
- **Ideal for fire alarm panels, elevator phones, pool phones, building entry systems, burglar alarms, fax machines** and more.
- **Built with the applicable compliance guidelines** of UL, NFPA 72, and ASME A17.1B in mind.
- **Manage all locations and devices** using intuitive web portal.
- **Patented MultiPath technology** routes all traffic over both LTE and wired ethernet networks simultaneously, so calls are never dropped.
- **Get SMS and email alerts** when a number is dialed or should outages occur.
- **Backup battery maintains service** for at least 16 hours during an unforeseen power outage.

## SIP Trunking

Get internal, inbound, outbound, local and long distance calling with advanced voice capabilities using internet and premises-based telephony equipment.

- **We partner directly with multiple carriers** as an Incumbent Local Exchange Carrier (ILEC), not as a reseller, so you always receive the best rates.
- **Quickly add new phone lines or modify phone service** without business disruptions or buying new hardware.
- **Interoperability** with all major native SIP trunk solutions and analog/digital PBX phone systems.
- **Automatic failover protection** helps ensure calls are never dropped due to natural disasters, power outages or ISP downtime.
- **E911 dialing capabilities enhance compliance** with regulations such as Kari's Law and RAY BAUM's Act.
- **Sophisticated, easy-to-configure call flows** empower administrators to route calls to the right employees and departments.
